DETAILED ACTION

Status of the claims: Claims 2, 13-17 are currently pending. Claims 3-12, and 18 were previously cancelled.

Priority: This application is a 371 of PCT/EP04/10653 (09/21/2004) and claims foreign priority to ITALY MI2003A 001855 (09/29/2003).

RCE: A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/13/09 has been entered.

Election/Restrictions

Applicant previously elected Group I (product of Formula I) and the species of compound No. 22 (Table 1 on page 163):

1-cyclopropyl-2-(3-methyl-1,2,4-oxadiazol-5-yl)-3-(4-(methylsulfonyl)-2-nitrophenyl)propane-1,3-dione

The examiner has searched the elected species; however as described in the following rejections the generic claim (claim 17) encompassing the elected species was not found patentable. Therefore, the claims are restricted to the elected species and the remaining subject matter withdrawn.

RESPONSE TO APPLICANT'S REMARKS / AMENDMENTS

Claim Rejections - 35 USC § 102

1. Claim 17 was rejected under 35 U.S.C. 102(b) as being anticipated by Yamada et al. (STN abstract of WO 9933796).

The prior art teaches the compound:

which anticipated the previous version of the claims when R is Me; B is 4-methoxyphenyl; and A is 4-methylsulfonylphenyl.

Applicant has amended claim 17 so that "D" only reads on heterocyclic groups and no longer aryl. Thus the definition of "B" as "D-(Rx)_n" no longer reads on the compound of Yamada et al. cited above.

Therefore this rejection is **withdrawn**.

NEW CLAIM REJECTIONS

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1626

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 2, 13, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Chichibabin (CAPLUS Abstract (Accession # 1928:615) of: Chichibabin, A. E., *Berichte der Deutschen Chemischen Gesellschaft [Abteilung] B: Abhandlungen* (1927), 60B, 1607-17.).

Chichibabin teaches the following compound:

Which anticipates the claim when "A" is phenyl (an aryl group), "B" is 2-quinolinyl ("D" can be heteroaryl), and "R" is phenyl (an aryl group) as described by formula I.

Claim Objections

4. Claim 2 is objected to because of the following informalities: it does not end with a period. Appropriate correction is required.
5. The pending claims are objected for reading on non-elected subject matter as a result of the restriction to the elected species ONLY.

Conclusion

The claims are not in condition for allowance.
